

# 2005 Syrah "Vixen"

## About Naked Winery

### Our Philosophy:

We are on a mission to produce premium class Washington and Oregon wines, with exotic brands and provocative back labels that are just a bit risqué. We aim to please the palate, change the conversation and enhance the romantic experience of wine.

We believe that the entire experience around wine should be fun. Read our back labels or have your mother-in-law read the back label aloud at your next family function. As we say, drink what you like. And who wouldn't like to get a little Naughty now and then?

### About Us:

Naked Winery is headquartered in Hood River, Oregon. Our vineyards are located in the Willamette Valley, Rogue Valley in Southern Oregon, Columbia Valley in Eastern Washington and the Columbia Gorge area. Our current varietals are: Pinot Noir, Pinot Gris, Sangiovese, Syrah, Merlot, Muscat, Cabernet, Chardonnay and Riesling. We will soon be releasing a Barbera and Nebbiolo to round out our Italian varietals. The vineyards in the coastal areas of Oregon benefit from the cool pacific marine layers of the Willamette and Rogue Valleys to produce subtle and complex wines. The vines in our Eastern Washington vineyards struggle with just enough drip irrigated water to produce exceptional fruit for our big bold Cabernet, Chardonnay, and Merlot.

## The Wine Facts

2005 in particular gave way to early summer rains and cooler than normal temperatures in the fall, yielding near perfect acid/sugar ratios. Vixen is characterized by her very dark beautiful color. Smoky, rich blackberry and hints of ripe black cherry on the nose. Close your eyes and experience the subtle complexity of the Rhone Rogue Valley, as Vixen finishes with roasted espresso. A musty Gruyere or maple smoked Vermont Cheddar will do nicely with this fox.

Label No:	012
Appellation:	Rogue Valley, Oregon
Alcohol:	13%
Barrel Regime:	73% French Oak (Neutral - 2nd year)
Blend:	100% Syrah
Cases Produced:	Around 500
