

VERMENTINO DI GALLURA D.O.C.G. SUPERIOR

Vermentino di Gallura "Special Labels"

Classification:

Vermentino of Gallura D.O.C.G. Superior

Description:

Vermentino di Gallura DOCG, an ambitious wine, which, as a result of its typical characteristic of a pure variety of a specific vine, has the power to bring on to a table, the scents of the earth and the light. The many difficulties of the Gallura allows the vineyard to express itself at its best, thus, creating unique and unrepeatable grapes that turn into an intense and strongly structured wine, with rich and generous aromas. The grapes of the Gallura are unique amongst Vermentino DOC (Denomination of Controlled Origin) and denominated as DOCG (Denomination of Controlled and Guaranteed Origin, DOCG). These grapes are harvested at full maturity, refined with a slow stirring process, to draw the best characteristics from this prestigious DOCG.

Features:

Intense straw yellow colour with hints of eucalyptus and aromatic scents of the sea. These are essences that embrace the vineyard and the constant presence of marine fragrances.

Vineyards of origin:

From the areas which are located in the south-east in our Vineyards in Gallura, where the grapes are more balanced and the varietal expressions of the grapes are preserved.

Harvest:

Traditionally harvested and manually placed in boxes

Soil:

Sandy soil which is derived from decaying granite with PH acids

Aging / Perfecting:

To favour the extraction of perfumes, the Sabbialuce is aged with soft but frequent stirring in holding tanks and barrels for a few months. It is then bottled and left to mature for another, 3 months before being put on sale. Because of the important structure of this strong wine, it can be consumed even after 3 years.

Bottles of 0.75L, Boxes of 6 Bottles per box
